

September 06, 2025: America does not exist. **America is a complete fiction.** I am promising you, world. America did not 'win' the American Revolution and **we have been ruled over by the Freemason's Secret Society for our entire existence.**

The law is full of fake fiction that provides a cover for a very large group of criminal insiders that are preying upon the world for their own financial gains.

I am seeing a group of piranhas circle around our home while criminals inside of the national security state spy on me and send them messages about when to come driving by our house. These are people of absolute moral decay. Humanity should be embarrassed because their 'finest' people are nothing more than an absolute disgrace.

For those of you making your fortunes 'protecting and defending' the American People, I am officially placing you on notice that your job is fake. You defend the efforts of a secret society of criminals that prey upon the innocent people that they are oppressing.

Freemasons and Freemason families: you are absolute trash. You are a family of thieves that are deceiving yourselves, your neighbors, and your families. Freemasons, you have been the problem for as far back as I can see. What I have discovered is nothing short of the worst criminal conspiracy in the history of the world.

Freemasons, you are nothing more than a group of perverted criminals.
